CEYBANK SAVINGS PLUS MONEY MARKET FUND - Annual Report 2013

REPORT OF THE MANAGER

We have great pleasure in presenting the Annual Report and Audited Accounts of the Ceybank Saving Plus Money Market Fund for the period 1st January 2013 to 31st December 2013.

The Net Asset Value per unit of your Fund appreciated by 11.08% during the period and the Fund distributed tax free dividends of Rs 1.45 (145cts per unit). The Fund will distribute dividends in January and July each year.

Economy

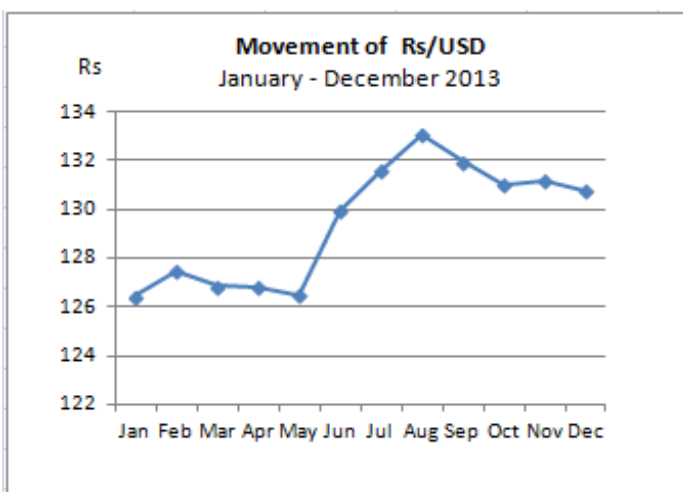

The Sri Lankan Economy recorded a GDP growth of 7.3% for the year 2013. Sector wise Agriculture grew by 4.7% down from 5.2% the previous year. Industry grew at 9.9% down from 10.3%. However growth in the Services sector increased to 6.4% from 4.6% in the previous year.

Average Annual Inflation measured by the CCPI, declined throughout the year closing at 6.9% as at end December 2013.

Market interest rates moved down gradually throughout the year and dropped sharply in December to close the year lower. The benchmark 12 month Treasury bill rate which was at 11.38% p.a. at the beginning of the year closed at 8.29% p.a. Yields on long term Treasury bonds moved down in similar fashion. Corporate paper yields too continued to drop, with Companies opting to use the low interest environment to borrow longer term funds by issuing debentures. Approximately Rs 60 billion was raised on debentures during the year. The issuance of short term paper reduced as a result of this activity.

Overnight call money rates generally traded within a range of 9.90% and 7.60% p.a. breaching the range occasionally. The exchange rate which was at 127.96 (Rs/US\$) at the beginning of the year moved up sharply during the second half, but settled down to close at 130.89 (Rs/US\$) at the end of December 2013.

(Source: CBSL)

Central Bank revised key policy rates downwards twice during the year, resulting in a 100 basis point drop on both the repo and reverse repo rates. The repo and reverse repo rates as at 31st December 2013 stood at 6.5% and 8.5% respectively. The Statutory Reserve Requirement (SRR) for Commercial Banks was reduced by 2% in July and is currently at 6%.

Fund Performance

The Net Asset Value per unit of your Fund appreciated by 11.08% during the period under review.

The Fund generated a net operating profit of Rs 70.96 million and declared tax free dividends totaling Rs 1.45 per unit to the unit holders for the period under review. The Fund was mainly invested in a mix of Treasury bills, Repurchase Agreements and Corporate paper with maturities less than 12 months.

Future Outlook

The Central Bank has projected the economy to grow at around 7.8% in 2014 and 8.2% in 2015. Growth is expected across all sectors with the Apparel, Tourism, Financial services along with infrastructure being key drivers. The easing of monetary policy is expected to spur lending to the private sector and stimulate growth. However the expected growth is yet to materialize.

The recovery of the export markets in the US and Europe as well cost of crude oil and local weather conditions will be important in determining the level of growth that will be finally achieved. Geopolitical tensions could also pose challenges in achieving these objectives.

Interest rates are expected to remain mostly unchanged during the year at current levels and edge up if private sector credit picks up. The Fund is currently invested in Treasury bills, Repurchase Agreements and a mix of Securities issued by Corporate entities. The objective of the Fund is to provide liquidity and a stable regular income for the investor. The Managers will change the asset allocation of the Fund in this context in order to fulfill these objectives.

Management

We take this opportunity to thank our valued unit holders for the confidence placed in us, which has been a great source of encouragement. We believe we will be able to provide a consistent return to the unit holders. We also place on record our appreciation for the unstinted support and cooperation extended by the Securities and Exchange Commission of Sri Lanka, the Trustee, National Savings Bank and Custodian Bank of Ceylon.

Our sincere appreciation is also due to the stakeholders, the Board of Directors and the members of the Investment Advisory Panel for their support. Our achievements would not have been possible without the skills and commitment of the Management Team. We take great pleasure in thanking them for their contribution and dedication throughout the year and look forward to their support in the coming year too.

K L Hewage
Chairman
31st March 2014

Independent auditor's report To the unitholders of Ceybank SavingsPlus Fund

Report on the Financial Statements

1 We have audited the accompanying financial statements of Ceybank SavingsPlus Fund, which comprise the statement of financial position as at 31 December 2013, and the statement of comprehensive income, statement of changes in unitholders' funds and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes as set out in pages 3 to 20.

Management's Responsibility for the Financial Statements

2 Management of Ceybank Asset Management Limited is responsible for the preparation and fair presentation of these financial statements in accordance with Sri Lanka Accounting Standards (SLFRS's and LKAS's). This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of Financial statements that are free from material misstatement, whether due to fraud or error: selecting and applying appropriate accounting policies: and making accounting estimates that are reasonable in the circumstances.

Scope of Audit and Basis of Opinion

3 Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Sri Lanka Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

4 An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

5 We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit. We therefore believe that our audit provides a reasonable basis for our opinion.

Opinion

6 In our opinion, so far as appears from our examination, the management of Ceybank Asset Management Limited maintained proper books of account for the year ended 31 December 2013, and the financial statements give a true and fair view of Ceybank SavingsPlus Fund's state of affairs as at 31 December 2013 and of its profit and cash flows for the year then ended in accordance with the Sri Lanka Accounting Standards (SLFRS's and LKAS's).

Report on other legal and regulatory requirements

7 These financial statements also comply with the requirements of Sections 151(2) of the Companies Act, No. 07 of 2007, the Unit Trust Deed and the Unit Trust code of the securities and Exchange Commission of Sri Lanka.

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements

(In the notes all amounts are shown in Sri Lanka Rupees unless otherwise stated)

1 General information

Under Section 31 of the Securities and Exchange Commission of Sri Lanka, Act No.36 of 1987 as amended by the Act No.26 of 1991 and the Act No. 18 of 2003, the Securities and Exchange Commission of Sri Lanka granted a license to operate the Fund to Ceybank Asset Management Limited on 02 June 2009. The Fund commenced its commercial operations on 22 June 2009. The registered office of the Management Company is located at 54/C1, Ward place, Colombo 7.

The Fund is an Open-Ended Unit Trust and invests mainly on money market in Sri Lanka to maximize short term current income while ensuring ease of liquidity by investing in a portfolio of Money Market Instruments and to provide a regular stream of dividend income bi-annually. The Fund also invests in government securities, bank deposits and corporate debt instruments with maturities less than one year.

2 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below:

(a) Basis of preparation

The financial statements are prepared in accordance with and comply with Sri Lanka Accounting Standards (SLFRSs and LKASs) issued by the Institute of Chartered Accountants of Sri Lanka and adopted as directed by the Securities and Exchange Commission of Sri Lanka.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The balance sheet is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and net assets attributable to unit holders. The amount expected to be recovered or settled within twelve months after the end of each reporting period cannot be reliably determined.

(b) Statement of compliance

These financial statements have been prepared in accordance with Sri Lanka Accounting Standards (SLFRSs and LKASs) which are effective from 01 January 2012.

(c) Financial Instruments

The Fund's principal financial assets comprise investments in trading securities and cash at bank. The main purpose of these financial instruments is to generate a return on the investment made by Unit holders. The Funds' principal financial liabilities comprise amounts attributable to Unit holders, which are the amounts owed to Unit holders of the Fund. The Fund also has various other financial instruments such as receivables and payables which arise directly from its operations.

In accordance with LKAS 39 Financial Instruments: Recognition and Measurement, the Fund's receivables are classified as 'loans and receivables'. Trading securities are classified as 'held for trading', meaning they are valued at fair value through profit or loss. The amount attributable to Unit holders is classified as a financial liability and is carried at the redemption amount being net asset value. Payables are designated as 'other financial liabilities' at amortized cost.

(i) Classification

The Fund's investments are classified as at fair value through profit or loss. They comprise:

- Financial instruments held for trading

Derivative financial instruments such as futures, forward contracts, options and interest rate swaps are included under this classification. The Fund does not designate any derivatives as hedges in a hedging relationship.

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements (Contd)

2 Summary of significant accounting policies (Contd)

(c) Financial Instruments (Contd)

(i) Classification (Contd)

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

- Financial instruments designated at fair value through profit or loss upon initial recognition

These include financial assets that are not held for trading purposes and which may be sold. These are investments in exchange traded debt and equity instruments, unlisted trusts and commercial paper.

Financial assets designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the responsible entity to evaluate the information about these financial instruments on a fair value basis together with other related financial information.

(ii) Recognition/derecognition

The Fund recognizes financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognizes changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities at fair value through profit or loss are derecognized when the obligation specified in the contract is discharged or expired.

Realized gains and realized losses on derecognition are determined using the weighted average method and are included in the profit or loss in the period in which they arise. The realized gain is the difference between an instrument's weighted average cost and disposal amount.

(iii) Measurement

Financial assets and liabilities held at fair value through profit or loss

At initial recognition, the fund measures a financial assets and liabilities at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of comprehensive income.

The fair value of financial assets and liabilities traded in active markets is subsequently based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs. The quoted market price used for financial assets held by the Fund is the current bid price and the quoted market price for financial liabilities is the current asking price.

The fair value of financial assets and liabilities that are not traded in an active market are determined using valuation techniques. Accordingly, there may be a difference between the fair value at initial recognition and amounts determined using a valuation technique. If such a difference exists, the Fund recognizes the difference in profit or loss to reflect a change in factors, including time that market participants would consider in setting a price.

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements (Contd)

2 Summary of significant accounting policies (Contd)

(iii) Measurement (Contd)

Financial assets and liabilities held at fair value through profit or loss (Contd)

Loans and receivables

Loan assets are measured initially at fair value plus transaction costs and subsequently amortized using the effective interest rate method, less impairment losses if any. Such assets are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment.

If evidence of impairment exists, an impairment loss is recognized in profit or loss as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

If in a subsequent period the amount of an impairment loss recognized on a financial asset carried at amortized cost decreases and the decrease can be linked objectively to an event occurring after the write-down, the write-down is reversed through profit or loss.

(d) Unit holders' funds and net assets attributable to unit holders

Unit holders' funds has been calculated as the difference between the carrying amounts of the assets and the carrying amounts of the liabilities, other than those due to Unit holders, as at the statement of financial position date.

Units can be issued and redeemed based on the fund's net asset value per unit, calculated by dividing the net assets of the fund calculated in accordance with the valuation guidelines issued by the Unit trust Association of Sri Lanka and approved by the Securities and Exchange Commission of Sri Lanka, by the number of units in issue.

Dividend to unit holders is declared according to the explanatory memorandum. Distribution to unit holders is recognized in the statement of comprehensive income as finance costs. Income not distributed is included in net assets attributable to unit holders.

(e) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank and interest accrued on cash held in bank.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity.

(f) Income

Interest income is recognized in profit or loss for all financial instruments that are not held at fair value through profit or loss using the effective interest method. Interest income on assets held at fair value through profit or loss is included in the net gains/(losses) on financial instruments. Other changes in fair value for such instruments are recorded in accordance with the policies described in note 2(c).

The effective interest method is a method of calculating the amortized cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements (Contd)

2 Summary of significant accounting policies (Cond)

(g) Expenses

All expenses, including management fees and trustee fees, are recognized in profit or loss on accruals basis.

(h) Income tax

The charge for taxation is based on the results for the year as adjusted for disallowable items. The current tax liabilities is provided for in accordance with the provisions of the Inland Revenue Act, No. 10 of 2006 and subsequent amendments thereto.

(I) Distributions

In accordance with the trust deed, the Fund distributes income adjusted for amounts determined by the KeyBank Asset Management Limited, to unit holders by cash or reinvestment. The distributions are recognized in profit or loss as finance costs attributable to unit holders.

(j) Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. Movements in net assets attributable to unit holders are recognized in profit or loss as finance costs.

(k) Receivables

Receivable are recognized and carried at amortized cost, less a provision for any uncollectable debts. An estimate for doubtful debt is made when collection of an amount is no longer probable.

Collectability of receivable is reviewed on an ongoing basis at an individual portfolio level, Individual debts that are known to be uncollectable are written off when identified. An impairment provision is recognized when there is objective evidence that the Fund will not be able to collect the receivable. Financial difficulties of the debtor, default payments are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

(I) Payables

Payables include liabilities and accrued expenses owing by the Fund which are unpaid as at the end of the reporting period.

The distribution amount payable to unit holders as at the end of each reporting period is recognized separately in the statement of financial position when unit holders are presently entitled to the distributable income under the Trust Deed.

(m) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

(n) Significant judgments and estimates

Management considers credit, liquidity and market risk and assesses the impact on valuation of investments when determining the fair value. Following are the key sources of estimation uncertainty at the statement of financial position date, that have significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

(o) Fair value of securities not quoted in an active market and over the-counter derivative instruments

Management uses its judgment in determining the appropriate valuation technique for financial instruments that are not quoted in an active market. Valuation techniques commonly used by market practitioners are applied. Other financial instruments are valued using a discounted cash flow analysis based on the assumptions supported, where possible, by observable market prices or rates.

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements (Contd)

3 Financial risk management

The Fund's activities expose it to a variety of financial risks: market risk (including price risk, currency risk, and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Product Disclosure Statement and seeks to maximize the returns derived for the level of risk to which the Fund is exposed. Financial risk management is carried out by the management company.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks and ratings analysis for credit risk.

3.1 Market risk

(i) Cash flow and fair value interest rate risk

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

The Fund's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

The table below summarizes the Fund's exposure to interest rate risks. It includes the Fund's assets and liabilities at fair values, categorized by the earlier of contractual repricing or maturity dates.

31-Dec-13	Floating interest	Fixed interest	Non- interest	Total
Financial assets				
Cash and cash equivalents	Nil	Nil	2,817,025	2,817,025
Receivables	Nil	Nil	5,342,717	5,342,717
Financial assets held at fair value through profit or loss	Nil	1,208,680,338	Nil	1,208,680,338
Total exposure	Nil	1,208,680,338	8,159,742	1,216,840,080

3.2 Summarized sensitivity analysis

The following table summarizes the sensitivity of the funds operating profit and net assets attributable to unit holders to interest rate risk and other price risk. The reasonably possible movements in the risk variables have been determined based on managements best estimate, having regard to a number of factors, including historical levels of changes in interest rates, historical correlation of the funds investment with the relevant benchmark and market volatility. However, actual movements in the risk variables maybe greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in performances and correlation between the performances of the economies, markets and securities in which the fund invests. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables

	Impact on operating profit / Net assets attributable to unit
	<i>Interest rate risk</i>
	31 December 2013
Change in interest rate of the Trust's investment in trading securities:	
+1.5%	1,150,983
-1.5%	(1,150,983)

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements (Contd)

3 Financial risk management (Cond)

3.3 Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due.

The main concentration of credit risk, to which the Fund is exposed, arises from the Fund's investment in debt securities cash and cash equivalents, amounts due from brokers and other receivables.

(i) Debt securities

The Fund invests in debt securities which have an investment grade categorization as rated by Fitch and RAM. An analysis of debt by rating is set out in the table below.

		31 December 2013
Treasury bills Rating		
Risk free		123,934,056

BBB +	RAM	103,269,589
Counterparties without external credit rating		60,647,539
Total		1,208,680,338

(ii) Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of AA+ as determined by the Fitch rating agency.

In accordance with the Fund's policy, the investment manager monitors the Fund's credit position on a daily basis.

3.4 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund is exposed to daily cash redemptions of units. It therefore primarily holds investments that are traded in an active market and can be readily disposed. Only a limited proportion of its assets are held in investments not actively traded on a stock exchange.

Units are redeemed on demand at the unit holder's option. However, the Board of Directors does not envisage that the contractual maturity disclosed in the table below will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements (Contd)

3 Financial risk management (Cond)

3.4 Liquidity risk (Contd)

The table below analyses the Fund's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period. The amounts in the table are the contractual undiscounted cash flows.

31 December 2013	Less than 1 month	1-6 months	6-12 months	1-2 years
Management fee payable	908,034	Nil	Nil	Nil
Other payables	Nil	254,250	342,899	Nil
Money Payable on Unit redemption	569,125	Nil	Nil	Nil
Contractual cash flows (excluding gross settled derivatives)	1,477,159	254,250	342,899	Nil

3.5 Fair value estimation

The carrying amounts of the Fund's assets and liabilities at the end of each reporting period approximate their fair values.

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognized in profit or loss.

(i) Fair value in an inactive or unquoted market

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Investments in other unlisted unit trusts are recorded at the redemption value per unit as reported by the investment managers of such funds.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Fund for similar financial instruments.

3.6 Fair value hierarchy

(i) Classification of financial assets and financial liabilities

The Fund classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

CEYBANK SAVINGSPLUS FUND

Notes to the financial statements (Contd)

3.6 Fair value hierarchy (Contd)

The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the responsible entity. The responsible entity considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The tables below set out the Fund's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 31 December 2013.

At 31 December 2013	Level 1	Level 2	Level 3	Total
Financial assets				
Financial assets held for trading:				
- Treasury bills	Nil	123,934,056	Nil	123,934,056
- Repurchase agreements	Nil	275,159,294	Nil	275,159,294
- Commercial papers	Nil	809,586,988	Nil	809,586,988
Receivables	Nil	Nil	5,342,717	5,342,717
Cash and cash equivalents	Nil	Nil	2,817,025	2,817,025
Total	Nil	1,208,680,338	8,159,742	1,216,840,080

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, certain unlisted unit trusts, exchange traded derivatives.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include; investment-grade corporate bonds and certain non-US sovereign obligations, certain listed equities, certain unlisted unit trusts, and over-the-counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. Level 3 instruments include corporate debt securities and certain unlisted unit trusts. As observable prices are not available for these securities, the responsible entity has used valuation techniques to derive fair value.

4 Net gains on financial instruments held at fair value through profit or loss

Net gains recognized in relation to financial assets and financial liabilities held at fair value through profit or loss:

	Note	31 December 2013	31 December 2012

5 Net assets attributable to unit holders

Movements in the number of units and net assets attributable to unit holders during the year were as follows:

	31-Dec 2013 Number	31-Dec 2012 Number	31-Dec 2013	31-Dec 2012
Opening capital balance	36,350,641.2	21,338,260.0	395,555,215	222,840,551
Applications	113,058,640.90	34,861,846.7	1,176,527,777	368,197,613
Redemptions	(35,297,564.4)	(19,849,465.5)	(370,002,031)	(212,524,707)
Increase in net assets attributable to unit holders	Nil	Nil	12,660,562	17,041,758
Closing balance	<u>114,111,717.70</u>	<u>36,350,641.2</u>	<u>1,214,741,523</u>	<u>395,555,215</u>

As stipulated within the Trust deed, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets of the Fund. There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.

Capital risk management

The Fund considers its net assets attributable to unit holders as capital, notwithstanding net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the management company. Under the terms of the Trust Deed, the responsible entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unit holders.

6 Distributions to unit holders

The distributions for the year were as follows:

31 December 2012

<u>Dividend for the period</u>	<u>Date of dividend declaration</u>	<u>Dividend paid in number of units</u>	<u>Dividend paid in rupees</u>
01 July 2011 to 31 December 2011	30-Jan-12	21,474,658	8,589,863
01 January 2012 to 30 June 2012	19-Jul-12	30,837,943	10,793,280
Total		<u>52,312,601</u>	<u>19,383,143</u>
