However adverse weather conditions, the prevailing recession in export markets and the volatility in international commodity prices remain a concern.

Interest rates are expected to remain at the current levels or ease down further during the second half of the year, due to high liquidity in the market and low private sector credit growth. The Fund being a Gilt Edge Fund is invested in a mix of Government and Government guaranteed securities in accordance with its objectives. The Managers will continue to monitor the interest rate environment and make changes to the investment profile to provide liquidity and regular income for the investor.
